U-Model.org is not a new framework in its quest for justice and wise governance. His wisdom springs from generations ago, from the times of the ancient world and the declining Roman Empire.

Who governs?

How does he govern?

And does he govern fairly?

That is what U-Model fights for, like a lone gladiator!

U-Model.org vs. Democracy which is in any country exercising equal voting rights, and this is the worst governance. **U-Model.org is the best governance in the World!**

Equal suffrage empowers mediocre people and stifles human progress. By averaging the expertise of mediocre people, we do not achieve heights in governance, but populism and distribution of corrupt money, through voting. At the moment in Europe, official statistics are that the mafia makes 70% of its money by redistributing public and European funds, by manipulating the vote, and not only in Europe, but everywhere in the world.

U-Model.org offers an alternative.

Democracy has a birth defect, it gives out money by voting. Democracy is corruption by idea, by birth and by conviction.

Democracy is freedom for the bandit and the fool and prison and tyranny for the intelligent and socially useful people.

U-Model.org offers the Atom of Governance, which will annihilate the anti-human and anti-material substance of democracy!

Democracy is the worst government!

This is Halloween

There is no way to get a value decision by averaging the vote of the average simpleton. In this way, society consumes decisions worse than the decision of the biggest simpleton. (Intelligent people don't even vote, and adding the votes bought with corruption and mafia money we understand the muddy world around us.)

Artificial Intelligence, high energies and high technologies are incompatible with Democracy. The end of the war will coincide with the beginning of the end of Democracy! People with philosophy and ideas will be able to control artificial intelligence. The structure of wealth and decision-making in all societies will shift towards them. Democracy, with its equal suffrage for thugs and fools, will be a hopelessly obsolete concept.

The biggest theft in the history of mankind is to steal the future of talent. This is the idea of democracy. Fool & Bandit vote with the majority to rob the money, the future & the life of the talented intelligent man.

Democracy is born after war, democracy always brings war and ends in war. The crowd has always fed on bread, populism and spectacle.

This is the biggest Population collapse in the history.

Democracy.911.bg is a genocide over talented people. If a large meteorite does not fall, the only reason for the extinction of the human species will be a violation of the law of natural selection.

The leader who rules the united world or any country must be elected by votes proportional to the merits of each voter (taxes paid), for a period of 3 years, if the mortality of the community falls, rule without elections for another 3 years, if not — again elections.

He must receive a score of no less than 61.8% of the combined aggregate intelligence of the planet.

The same leader cannot be elected twice if mortality has not decreased.

Petar Stefanov Nikolov

Since the Greeks have created democracy, they are one of the poorest. Democracy is poor thinking, poor action, poor choice.

U-Theory vs Democracy

U-Theory — Core Principles

Every system that exists pays three inescapable prices — Time, Space, and Energy. The question is not whether it pays, but whether it can afford to.

NOT stability at any price — stability at a TOLERABLE price.

A system at $U = 0.618$ is minimum viable stability — below it, collapse becomes probable.

No pillar can compensate for another's collapse.

U-Theory, Triad & System Stability

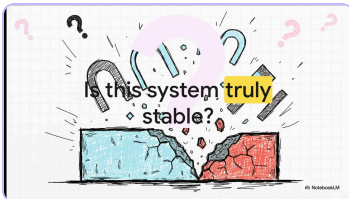

80 entries

U-Theory models every system through three inseparable pillars: **Form** (what the system IS — identity, structure, rules), **Position** (what the system HAS — context, resources, environment), and **Action** (what the system DOES — output, decisions, function). The stability formula $U = \sqrt[3]{(F \times P \times A)}$ uses a geometric mean so that no single pillar can compensate for another's collapse. A system crosses the stability threshold at $U \geq 0.618$ — the Golden Ratio.

Primitive people need approval to act. smart person does not seek approval, but a result. The action is motivated by desire, but is limited by value systems; approval is superfluous. When others approve of a crime, should we seek approval?

Adaptation = Entropy when the environment is bad. Only death adapts to chaos. Force is not energy, even when it does not lack speed because its direction changes too often.

Petar Nikolov — <http://75.911.bg>

The energy to destroy something is always less than creating it. Other Wise there would be no entropy.

Petar Nikolov — <http://234.911.bg>

Each student knows that the size of each digit does not depend on the position he occupies in the record of a given number. Why do civil servants think that with their positions increase the digit of their minds.

Petar Nikolov — <http://251.911.bg>

The energy to destroy something is always less than creating it. Otherwise there would be no entropy.

Petar Nikolov — <http://275.911.bg>

Every action comes from a problem.

Petar Nikolov — <http://361.911.bg>

Creating problems most easily cause actions, but every action has its price.

Petar Nikolov — <http://363.911.bg>

Each action has three dimensions: 1. Legality 2. public utility 3. The approval. Some lives in a one-dimensional world of Populism.

Patience is a resistance to the right action, but its unPlanned loss is wrong action.

Petar Nikolov — <http://657.911.bg>

Matter is eternal and objectively existing, only the form is determined by the image of the dominant individual, everywhere, and in everything.

Petar Nikolov — <http://739.911.bg>

Form is the carrier of information essence. Each form has its creator, even the ugliest, the most dysfunctional and the most bearing expense forms. Behind every form is an individual. Behind the form of the universe is god.

Petar Nikolov — <http://740.911.bg>

The choice of a dominant individual is a choice of form of existence.

Petar Nikolov — <http://741.911.bg>

In the world of business, everyone determines the form of what he has created. Creation is the fruit of a competitive struggle. This is the right method.

Petar Nikolov — <http://742.911.bg>

The struggle between the forms is to impose the one that causes the least resistance of the environment. The resistance is low for the form of fish in to water, form of airPlane to the air, of Populism to the democracy.

Petar Nikolov — <http://743.911.bg>

If a systems has zero entropy, it does not need energy for its propulsion but only fromtime. If you do something good and nothing happens, do it for a longtime.

Petar Nikolov — <http://902.911.bg>

Energy is contained in the forms to extract it, we must destroy the form. But victory is not complete when destruction is complete, victory is complete when we preserve forms to use their content.

Petar Nikolov — <http://1017.911.bg>

Every river strives for the low, and every person strives for the high. Each water takes the form of his receptacle, and each person has the form of his thought. The liquid fills our veins and we live until we can push it.

Petar Nikolov — <http://1094.911.bg>

Governance, Democracy & Public Order

In U-Theory, a state's **Form** is its constitution and legal framework, its **Position** is geography, resources, and alliances, and its **Action** is policy execution and civic freedoms. When governance distorts any pillar — through populism, corruption, or ideological capture — the geometric mean collapses the score honestly: no propaganda can substitute for structural failure.

Wise people are not the fruit of electoral law, they are the proof that democracy is not wisdom.

Petar Nikolov — <http://524.911.bg>

The Wise people in the one state are so few that they will not enough to be teachers in only one single school.

Petar Nikolov — <http://527.911.bg>

There are people who, in a word, can create many trillions of dollars, but democracy has no mechanism to choose them to rule.

Petar Nikolov — <http://542.911.bg>

Poverty stems from the lack of leaders to create value rather than just to be enjoyable of people.

But the ideas that contradict the laws of nature are rapidly breaking apart.

Petar Nikolov — <http://547.911.bg>

The leader is the one who has followers, according to social networks, but it follows that one steak becomes a leader.

The biggest crime is the violation of the law on natural selection.

Petar Nikolov — <http://589.911.bg>

Moral categories as well as religions only make sense as an instrument for reducing total public spending. The same applies to the laws.

Petar Nikolov — <http://607.911.bg>

Leaders who do not seek changes have many followers, and leaders with a mission of alteration are not understandable to the audience.

Petar Nikolov — <http://651.911.bg>

It is good to follow the successful leader only if he did not succeed at your expense. Loss of followers is often a major source of leaders' success. This is democracy - Celebrating General nonsense.

Only a person who is able to realize his own insignificance can be useful as a leader.

Petar Nikolov — <http://694.911.bg>

Good leader places the interests of the organization before his ego. There are no such leaders, for the ego is the candle of life.

Petar Nikolov — <http://695.911.bg>

Leaders are useful in front of the big opportunities, not in front of the big problems. Real leaders are not the ones who create problems, but those who solve them. But the history is full of opposite examples.

Petar Nikolov — <http://696.911.bg>

People are unable to approve someone more capable of them - this is contrary to natural selection. However, they must not derive rights from their disapproval of obstructing and envy. This is the beginning of the end, like 1917.

Petar Nikolov — <http://711.911.bg>

The form of existence cannot be determined electively, but only by the mechanisms of natural selection. Democracy violates the laws of natural selection.

Petar Nikolov — <http://738.911.bg>

I'm not a Democrat. Even only the isomorphism of populism with the essence of democracy is a necessary and sufficient condition for it to remain in history, such as feudalism, slavery and communism ... The Riskmarket comes.

Petar Nikolov — <http://745.911.bg>

The new scheme that will replace the democracy I will call - RiskMarket. Then people who buy most of the risk will have the majority of voting rights in Government.

Petar Nikolov — <http://751.911.bg>

The quality of life depends on the level of awareness of the environment by the dominant leader. choosing a leader is made by people who have close or the same kind of awareness with leader. Equal vote lead to a bad result for all.

Petar Nikolov — <http://759.911.bg>

If people realized more, they would live better. Leaders with a high level of awareness must be chosen. It is therefore necessary to vote with as many votes as taxinsurance has paid every individual during his entire conscious life.

Petar Nikolov — <http://761.911.bg>

Any dictator comes to the thought that publicity is a kind of inflation of his power, and he resolutely removes it. Financial dictatorship on the currency board produces Poverty by removing inflation and strengthening the incompetent power.

7. Leadership-We must not be jealous of others success but help them and & learn from them. We have to make legends for our successful leaders. We have to place them in front of the big chances and opportunities , not in front of the big problems.

Petar Nikolov — <http://807.911.bg>

8. Main Expectations: - The true leader should direct the people's Expectations towards the interests of the organization, not in the direction of satisfying their individual ego. All has to be as one and not one to be like all.

Petar Nikolov — <http://808.911.bg>

17. Intolerance unprincipled - we have to get rid of people, who do not share the philosophy of the organization. Our leaders must preach our culture and who believe in the mission and not to please everyone.

Primary is the interest, secondary is the value systems and tertiary is the approval. This shows how untenable a derivative is democracy, which relies entirely on approval and Populism. Violating and manipulating the law of natural selection.

Petar Nikolov — <http://839.911.bg>

How many in each of the 4 directions? There is a mechanism to measure how much everyone gains for themselves. There must be a mechanism for calculating the profit and loss of others from the actions of each leader.

Petar Nikolov — <http://849.911.bg>

In 2030, in the Capital of the world NewConstantinople will gather the advice of the guardians of the "Natural Selection Law", many important Decisions are ahead. The only reason for the probable end of civilization is the cruel suppression of this law. <http://864.911.bg>

The pursuit of popularity has escaped the desire to achieve a result. And more popular are people who do not get results. The Natural Selection Law is violated.

The number of people who read or approve one thesis does not contribute to its veracity. That is why democracy is a big lie printed in billions of copies, with the secret hope of becoming true.

Petar Nikolov — <http://987.911.bg>

A positive attitude to truth is a sign of the level of justice in a society. Justice is not to please the majority, as democracy demands. The lie is natural; the truth is unnatural, according to democrats.

Democracy is an enemy of itself. "Demos" is the source of mafia. The "demos" are the greatest enemy of all thinking people, the "demos" are enemies of themselves, but this is only a small bonus.

Like a mother who is dreaming, she looks for herself when she fears for her child. This is how a nation in a dream seeks its leader by confusing him with itself. No one can lead himself if he does not know where. Petar Nikolov <http://1219.911.bg>

If you do more that others expect from you, you get less than you need. If you do nothing, you get everything. Do not seek gratitude. This is the democracy.

Petar Nikolov — <http://1224.911.bg>

The freedom to lie is the first freedom I would forbid, whether political or economic. The noble distribution of state money is the clearest sign of deprivation of any kind of freedom.

Petar Nikolov — <http://1238.911.bg>

The existence or absence of citizens' freedom is not determined by the funding institution. Freedom is inversely proportional to the mortality of the population, both in animals and humans.

Petar Nikolov — <http://1239.911.bg>

The crowd weighs the chances of survival, not the sense. The sense is easily to destroy. The elect of the crowd sacrifices the meaning first. The crowd is the mother of democracy and the father of destruction.

Most people find it very **#wise** to go around the truth or **#lie**. Short-term benefit and material interest are not on the side of **#truth**. Such are the **#rules** and **#laws**, such is the **#moral**, now. Enjoy of <http://democracy.911.bg>

Petar Nikolov — <http://1886.911.bg>

A community of individuals cannot survive if the **#way** of **#survival** is not approved by the **#majority**. The only way is for the majority not to have the right to **#vote**. The vote must be proportionate to the **#merits**, not **#equal**.

Petar Nikolov — <http://1889.911.bg>

The **#minority** already has the **#resources** not to bribe the majority, as it was before. The minority must formalize its right to **#vote** according to its **#merits** to society. **#Society** must accept or end coming.

Petar Nikolov — <http://1890.911.bg>

The **#minority** should officially lead the majority according to its merits to the common **#interest**, and not hide behind an apparent majority of bought **#voters** or soon everything will **#fall** apart.

The sooner <http://democracy.911.bg> is abolished, the more likely **#humanity** is to **#survive**.

Petar Nikolov — <http://1892.911.bg>

There is no worse choice than the **#majority**. Equal voting rights make the choice of the **#majority** - the **#vote** of **#mediocrity** and collective irresponsibility. In choosing any minority, there would be more concern for the common interest.

Petar Nikolov — <http://1893.911.bg>

Who **#pays**, he **#orders** the music. The no-pay music ordered by the **#majority** is a fake squeak. <http://Democracy.911.bg> is a concert performed by a screaming audience, not by **#talented** artists.

Petar Nikolov — <http://1894.911.bg>

The state is a **#mafia** circle of mediocre people who would not survive on the free market. They need the choice of a **#mediocre #majority**. There is no **#intelligent** person who would choose to be a **#clerk**.

Petar Nikolov — <http://1895.911.bg>

Humanity will face problems exceeding thousands of times the **#damage** caused by COVID19. But **#resources** and **#opportunities** will be wasted by <http://democracy.911.bg> Then there may be no way **#forward**. 1-2% growth at zero interest is **#BAD**.

Petar Nikolov — <http://1896.911.bg>

The claim that there is a separation of **#powers** in a <http://democracy.911.bg> is ridiculous. What division can there be in power that comes from the will of the **#majority** of **#fools**? All power has a common root and it is called **#populism**.

The long-term way of thinking will kill the short-term one, and this is not **#genocide**, but natural selection. The opposite is genocide. <http://Democracy.911.bg> is genocide over talented people.

The human mind is a system: beliefs and values are **Form**, knowledge and experience are **Position**, and decisions are **Action**. Intelligence is not just what you know, but the geometric mean of what you are, what you have, and what you do with it. A brilliant mind with no integrity or no agency scores near zero.

Everyone wears a key in their pockets, but not all of us stand in front of the door which we can unlock. Artificial intelligence is the key to all doors. Are we ready to open them? Or someone has already done it .

Petar Nikolov — <http://38.911.bg>

Great popularity is often the result of the great stupidity of both sides: the one being followed and the followers. The ability to distinguish nonsense from mind is equivalent to the ability to distinguish good from evil.

Petar Nikolov — <http://47.911.bg>

One can not be both Wise and cunning at the sametime. Except, if there are psychological abnormalities.

Petar Nikolov — <http://49.911.bg>

An internal enemy can be only a limited mind, the big minds do not fight within the organization, they just go out. The outcome depends on choosing the effort you do not have to make or, above all, the people you do not have to lose.

Petar Nikolov — <http://52.911.bg>

One can lie on many foreign things, but he can only to climb on his own things. We do not need someone to give us gifts, we need the ownership of our own thoughts and actions. Rich is a country where the owners have paid for their property.

Petar Nikolov — <http://65.911.bg>

Every genius seems mad, but not every madman is genius. popular people seem to be simple, but not every fool is popular. Every politician seems to be unprofessional, but not every unprofessional is a politician. nothing is what it seems.

Petar Nikolov — <http://82.911.bg>

Everyone has to number his important thoughts and record them. Because any loss of important information is a small death.

Petar Nikolov — <http://88.911.bg>

There are simple thoughts that can produce trillions of dollars value if they are applied by all mankind. Does no matter is that someone can produce trillions chewing gums or shaving creams, especially if they want to sell them to women.

Petar Nikolov — <http://105.911.bg>

Rather, the one-celled organism will realize its existence rather than some people to understand some elementary truths. There are kinds of mind that prevent its owners from being called intelligent beings.

Petar Nikolov — <http://106.911.bg>

If we increase the intelligence of a rat, it will become a human, the same is true for a pig , but this kind of intelligence is of no value for improving the chances of survival of human civilization.

Petar Nikolov — <http://107.911.bg>

Stealth is the way of fools to replace the smart.

Petar Nikolov — <http://109.911.bg>

Petar Nikolov — <http://114.911.bg>

Some are looking to be noticed, others are afraid to be noticed, the truth is in what you yourself can notice if you are not blind to the important things, and if you understand the meaning.

Petar Nikolov — <http://120.911.bg>

Apparently, simplicity has a great chance in case of war with mind because its purpose is destruction, in the opposite the purpose of mind is creation.

Petar Nikolov — <http://122.911.bg>

The problem with simplicity, when it destroys the mind, is that it then has to replace it.

Petar Nikolov — <http://124.911.bg>

There are three ways of thinking the best way, yours way and the stupid way.

Petar Nikolov — <http://125.911.bg>

Petar Nikolov — <http://129.911.bg>

The more intelligently you speak, the fewer listeners you will have. Not everyone can resist the urge to be foolish. But no one remains in history because of stupidity. The NAME by which stupidity remains in history is "fear. "

Petar Nikolov — <http://139.911.bg>

Petar Nikolov — <http://157.911.bg>

People who do not understand you, have a motive or have no brain, but that does not downplay what you are talking about. It is important that all knowledge is recorded and formulated correctly, whether it will be heard and realized.

Petar Nikolov — <http://159.911.bg>

It is easy to prove that everyone does not understand most things they know. But this cannot be transferred to artificial intelligence. It has to know and realize everything, especially morality.

Petar Nikolov — <http://160.911.bg>

The danger of artificial intelligence losing balance and destroying the world can only be blocked by a clear definition of good and evil. Only one theory can hold the power of AI to create good — U-Theory.

Petar Nikolov — <http://161.911.bg>

Everyone thinks himself underestimated because he wants an goodevaluation. If you do not need someone to appreciate you, you are free of inferiority complexes. The Wise man needs no evaluation. His assessment is given by the coming millennium.

Petar Nikolov — <http://191.911.bg>

Memory is the greatest prize for the qualities of the heart, the will and the mind, and oblivion is the greatest punishment for heartlessness, lack of will and stupidity. But before we destroy all the memories, we must root out evil.

The energy of creating foolishness is not enough to light the lamp in the toilet, the energy to discover the meaning of life can ignite a supernova. We need to replace money with energy. This will make the weakness of stupidity obvious.

Petar Nikolov — <http://914.911.bg>

The Wise man rarely specifies for who, for what and which place is talking about. This, to his joy, makes him uninteresting to the crowd.

Petar Nikolov — <http://918.911.bg>

Most often people do not like the same thought that has created their favorite subject. Therefore Wise men must bribe fools with objects, not with thoughts.

If you can divide your mind from your own self and then merge it again, you don't need emotions.

Petar Nikolov — <http://950.911.bg>

The best siege tactic that can break any will for life is to surround your enemy with a dense and impassable stupidity. It comes out very cheap and it's easy.

Petar Nikolov — <http://1014.911.bg>

The thought of the damage the enemy caused to you is most damaging. The enemy thinks, what else do you own. So you must think like your enemy - for the rest.

The most convenient place to think is in the center of a black hole. Divine Reason was born at the bottom of the BlackHole.

Petar Nikolov — <http://1060.911.bg>

Thought can crawl on the walls of each hole, but to make one hole to be the sense of life, this can make only a great stupidity. foolishness can be a phenomenon only in the center of a hole.

Petar Nikolov — <http://1064.911.bg>

Some think that it is a mistake to expand the universe infinitely, others to shrink infinite. It only depends on the mass of mind and the stupidity in the universal sense. Our stupidity is moving away, our mind is drawing us closer.

Petar Nikolov — <http://1208.911.bg>

The ability to evaluate what is meaningful to all, but not what matters to the group or individual is beyond the power of the collective mind. It is the quality of a wise man who is born once of millions and even billions of others.

Leadership, Strategy, Management & Organization

A leader's job is to maintain all three pillars simultaneously. Strategy is long-term Form (structure), resources are Position, execution is Action. The geometric mean punishes one-dimensional leaders: a visionary without execution scores zero, a manager without vision accumulates entropy. True leadership is triadic balance.

No matter how long you live, one life will not be enough to explain to the crowd that it is not easiest, but the **#right** way is **#successful**. The **#crowd** complies with first **#law** of Newton.

Big discount rate... Just when the **#future** is by question, then fear it makes everyone cling to the **#present**.

Petar Nikolov — <http://1529.911.bg>

The **#future** begins with the event that has the most **#energy**, though it does not shine brightest and not be heard loudly. Whatever it was been, the future is changing and the **#universe** is recognizing that change. **#Astrology** ... — Petar Nikolov <http://1547.911.bg>

#Success is a **#wave** that is fed by the flow of new water, not by the **#shaking** of the old water.

Petar Nikolov — <http://1557.911.bg>

One reason to **#repeat** yourself is that you **#forget**, the other is that you can't say nothing **#new**. I choose the first one. The new must be life, the **#old** must be death, not the other way around. Who stops saying something new must die.

Petar Nikolov — <http://1580.911.bg>

An **#experience** that shows a range of **#unpossibilities** is death for **#talent** and **#enterprise**.

I have no **#desire** to change the world because I have long changed it. Now I wish I hadn't done it. Because I **#forgot** to change **#myself**.

Petar Nikolov — <http://1630.911.bg>

You need to be able to **#disappear** and **#emerge** without causing attention, but only creating **#waves** in the mass **#consciousness**. This is the butterfly splash. Life is not what you take, but what you **#challenge**.

Petar Nikolov — <http://1635.911.bg>

The **#upbringing** is: the little monkey does everything to get the big monkey's **#approval**. The **#success** is: the big **#monkey** does everything to get the approval of the other monkeys. The **#result** is a **#great** monkey job.

Petar Nikolov — <http://1636.911.bg>

#Death teaches more than life. Social contacts and **#self**-esteem impairs the chances of **#survival** in the event of an epidemic.

Petar Nikolov — <http://1643.911.bg>

A **#fool** will never appreciate you, will always prevent you from living and he stealing from your labor, the war with simplicity is a war of **#life** and **#death**. The fool is a mortal **#enemy**. Never underestimate it I or he this is the question.

The worst part of a human **#life** is not when you do not have **#energy**, but when you have it and do not have in something to put it.

Petar Nikolov — <http://1724.911.bg>

We all love **#corruption**, we always justify it with: - It's a matter of taste! But it has long since become a way of **#survival** for the unfortunate survivors. All you have to do is be "happy" not to survive.

Petar Nikolov — <http://1726.911.bg>

Failure to share the **#principles** of <http://911.bg> will lead to the destruction of humanity. Beauty cannot be forced. <http://1732.911.bg>

Petar Nikolov — <http://1734.911.bg>

Failure destroys the self-esteem of all failed. **#Corruption** removes the **#success** of the **#talented**, but not their self-esteem. Talent is something that holds on to itself.

The strongest is the one with whom others have no desire to compete. Envy is the strength of the weak. The strongest learn to avoid it.

#Success does not depend on the present value of the **#result**.

Petar Nikolov — <http://1764.911.bg>

I invented a **#homework** for my child: If every fool in his own life can **#ruin** one **#talented** person, and on every 10 **#fools** there is give birth to one talented one. How long will it take for <http://democracy.911.bg> to fail the whole world?

Petar Nikolov — <http://1794.911.bg>

The **#success** of any **#fool** is in fact a huge **#failure** for **#society**. A fool never succeeds alone. Fools only succeed in groups by parasitizing on the public interest, which increases the **#mortality** of the population.

Petar Nikolov — <http://1852.911.bg>
